

Didsbury Mini Heavy Duty and Lightweight Gantry Cover Lifter

The Didsbury **Mini Heavy Duty and Lightweight Gantry Cover Lifter** best service the bigger Elkington Gatic covers, up to 400 kg in weight.

Its fully adjustable legs allow operators to lift those covers on steep sloping ground safely. A braking system is incorporated in the beam to give the operator total control over the cover during lifting and lowering.

Features

- Lifts all large Elkington Gatic covers
- Lightweight, one man operation
- Lifts all covers on sloping uneven and soft ground
- Can be used horizontally or will adjust to lift covers on a 20 degree incline
- Tight cover jacking facility
- Will lift all covers with key holes
- Larger or smaller gantries available for Elkington Gatic covers, BT covers and Sewers

Working Load Limit (WLL)

Part no.10/3742 Lightweight Gantry 250 kg at safety factor of 4:1
 Part no.10/3801 Heavy Duty Gantry 400 kg at safety factor of 4:1

Adjustment : Adjusts in 2.5 degree increments
