

Didsbury Engineering

2m High Lightweight Tripod

The Didsbury **2m High Aluminium Lightweight Tripod** provides an easy to handle hoist mounting for vertical lifts in restricted access situations.

Easy to erect and adjustable for height and level, it can be deployed quickly for man-riding, general lifting and rescue operations. When not in use the tripod packs away neatly in its own compact carrying bag.

Part No.	Description
61/960	2m High Lightweight Tripod
61/927	Tripod carry bag
83/219	Leg Mounting Bracket for DECO 2000
61/866	Leg Mounting Bracket for LLRTZ Hoist
61/1002	IKAR Fall Arrest bracket for Didsbury Tripod
61/999	Pulley wheel for Open Drum Hoist or IKAR Fall Arrest

FEATURES

- Manufactured in corrosion-resistant aluminium it offers excellent strength-to-weight characteristics and exceptional durability.
- Quick release leg splay latch incorporated into head mountings – simply pull on the legs to release
- Self limiting leg position improves safety and access by eliminating the need for potentially dangerous restraining chains or obstructive tie bars
- Each leg is telescopically adjustable for height and level
- Quick release spring clip pins are easy to operate and secure
- Swivelling feet with rubber slip-resistant tread for use on smooth surfaces and spike profile to locate securely in soft ground
- Two universal eye bolts suit most and hoist and fall arrester mountings
- Adjustable to 5 positions at 50mm (2") increments
- Optional padded storage carry bag for safe and convenient transportation
- Proof loaded, tested to BS EN 795 for protection against falls from height and certified for man-riding and/or goods lifting
- Provides exceptionally lightweight, free-standing lifting systems when used with the Didsbury DECO 2000, LL/RTZ MINILIFT Hoist or Open Drum Lightweight Hoist

Working Load Limit (WLL)

Material handling 508 kg at safety factor 5:1
Man-riding 254 kg at safety factor of 10:1

Weight: 18 kg

Dimensions

Overall height
Max. extended: 2.40m
Min. extended: 1.37m
Min. folded: 1.49m

Tripod Height

Max. extended
Min. extended

Working Limits

	Manhole diameter	Trench width
Max. extended	2.20m	1.60m
Min. extended	1.15m	0.85m
